## June Fete Offers Stellar Attractions

- Choosing a Doctor
- A Day in the Life of the Chief Resident
- Community Focus
- PHCS Welcomes Community Input on Its Future

# The Rocket Fete! Soars to New Heights

The Rocket Fete! will blast off in June with a variety of stellar attractions including an out-of-this-world travelling space exhibit hosted by NASA and a philosophical and engaging presentation by veteran astronaut Story Musgrave. True to tradition, the June Fete, an annual community celebration and festival held each spring, will also offer family fun in the form of games, crafts, entertainment and delicious foods.

The largest fundraising event of The Auxiliary of University Medical Center at Princeton, the June Fete begins on Friday evening, June 4 with a community preview from 6 to 8 p.m. at Princeton University Football Stadium – an exciting new location for the Fete. Friday evening activities also include the Fete Moondance at the Princeton Quadrangle Club, where guests will enjoy dinner, dancing, a casino and a silent auction until midnight. The Fete continues bright and early Saturday morning, June 5, in a day packed with activities at Princeton University Football Stadium. The Rocket Fete! is being co-chaired by Karen Fein Kelly of Montgomery and Jody Erdman of Princeton.

## **Journey to the Future**

*Imagine passenger spaceliners lifting off from ordinary airports on a daily basis....  
Imagine vacation resorts on the Moon....  
Imagine research stations on Mars....*

NASA's Starship 2040, one of Saturday's special attractions, will take adults and children on a journey to the future — one in which human beings travel freely to other worlds, and here on Earth enjoy new comforts and benefits made possible in countless ways by the technological innovations developed by NASA and its partners. Voyagers on the starship will be introduced to the foundation technologies necessary to make travel and work in space as safely, affordably and routinely as we now navigate the skies.

Not to be missed, the exhibit will showcase the anticipated long-term results of the next 40 years' worth of NASA's technology development in the areas of space launch, space transportation and in-space propulsion, as well as interplanetary space science and human exploration beyond low-Earth orbit.

**Voyagers will be introduced to the foundation technologies necessary to make travel and work in space as safely, affordably and routinely as we now navigate the skies.**

Veteran NASA astronaut Story Musgrave.

Created and managed by NASA's

Marshall Space Flight

Center, the Starship 2040 exhibit is packed into a 48-foot tractor and trailer rig. Inside, visitors can explore the central passage of a commercial spaceliner circa 2040, looking in on the flight deck, engineering compartment and other areas while experiencing the sights and sounds of a real, working space vehicle – from the throb of the high-energy engines and periodic reports from the captain and crew to catching glimpses of other spacecraft orbiting Earth as well as science missions deep into the solar system.

## **An Artist's View of the Universe**

With a 30-year career spanning the Apollo era of the 1960s right through to the Space Shuttle program of the 1990s, Story Musgrave is one of NASA's most experienced astronauts and the only one to have flown all five Space Shuttles. In addition to a fascinating career in space, his life's experiences have included working as a pilot, surgeon, mechanic, poet, professor and philosopher.

Since retiring from NASA in 1997, Musgrave's new mission is to share his many unique experiences before national and international audiences. At the Fete, Musgrave will reveal the thought-provoking perspectives he has gained through his many interests, a lifelong pursuit of higher learning and a personal love of nature and humanity. He will explain how mankind has always looked to the universe for answers to questions of life and death on Earth.

Musgrave is a popular guest of the Astronaut Encounter Program at the Kennedy Space Center and also consults for Walt Disney Imagineering and Applied Minds Inc. in their research and development divisions. He is an advocate and visionary for the continual exploration of space.

Musgrave will host his meet and greet presentation at 9:30 a.m. for runners in the 10k race and will then serve as master of ceremonies for the race awards ceremony, which begins at 10 a.m. Musgrave will offer his lecture for the general public at 1:30 p.m. at McDonnell Hall.

Children of all ages are welcome to explore NASA Starship 2040 at The Rocket Fete!

### Much to See & Do

In addition to the many special attractions surrounding this year's theme, the Fete will offer a full range of activities for adults and children of all ages.

One lucky winner will drive away in a brand new red 2004 Volvo S40 T5 as part of the annual June Fete car raffle. Only 1,500 tickets will be sold for this luxurious vehicle valued at \$32,495 and generously donated by Long Motor Company Volvo of Princeton.

This year's auction will feature a rare and beautiful meteorite from Mars. The rock, which is listed in the Meteoritical Bulletin as Dar al Gani 1037, was donated to The Rocket Fete! by David L. Nathan, MD, a member of the Medical & Dental Staff, Princeton HealthCare System. It is valued at \$3,500. Evidence indicates that the rock was produced in a lava flow from a Martian volcano about 474 million years ago.

All proceeds from the June Fete will benefit the establishment of a new community

Breast Health Center. The center is being created by University Medical Center at Princeton to provide complete breast-related diagnosis and treatment within one comprehensive facility.

For more information on the June Fete, contact the Auxiliary office at 609.497.4069 or visit [www.princetonhcs.org](http://www.princetonhcs.org).

**Admission is free and open to the public.**

### Fete Activities & Attractions Saturday, June 5

- 8 a.m.**
  - ➔ 10K race
- 9:30 a.m.**
  - ➔ A one-mile fun run for children
- 9 a.m. to 5 p.m.**
  - NASA Activities**
    - ➔ NASA Starship 2040
    - ➔ Scaled model of the solar system – 2000 linear foot walk
  - CHILDREN'S ACTIVITIES**
    - ➔ Games
    - ➔ Sand art
    - ➔ Face painting
    - ➔ Obstacle course
    - ➔ Ring toss
    - ➔ Art & more
    - ➔ Pony rides & petting zoo
  - ➔ **LIVE AUCTION**
  - ➔ **FLEA MARKET**
  - ➔ **LANE OF SHOPS**
- ➔ **ONGOING ENTERTAINMENT BY LOCAL BANDS AND CHILDREN'S GROUPS**
- ➔ **GARDEN TENT**
- ➔ **GAMES FOR MIDDLE & HIGH SCHOOL STUDENTS**
- SPORTS ALLEY**
  - ➔ Soccer
  - ➔ Basketball
  - ➔ Tennis
  - ➔ Baseball
  - ➔ Golf
  - ➔ Dunk tank

## Health Education Calendar

Programs are free and registration is required unless otherwise noted.  
Please register online at [www.princetonhcs.org/calendar.html](http://www.princetonhcs.org/calendar.html) or call 609.497.4480.

### LOCATIONS

**University Medical Center at Princeton**  
253 Witherspoon Street  
Princeton, NJ 08540

**Princeton Fitness & Wellness Center**  
Princeton North Shopping Center  
1225 State Road  
Princeton, NJ 08540

Directions available online at [www.princetonhcs.org](http://www.princetonhcs.org).

### CURRENT PROGRAMS

#### Summer Skin Care

**WED. June 23 (6:30 - 8 p.m.)**

**Princeton Fitness & Wellness Center**

Robyn B. Notterman, MD, board certified in dermatology, will give tips about caring for your skin to prevent damage during the summer months.

#### Sensational Summer Recipes

**TUES. June 29 (6:30 - 8 p.m.)**

**Princeton Fitness & Wellness Center**

Join Constantine Papanicolaou, owner of the Metuchen Inn, Metuchen, and Joanne Gordon, registered dietician, for a demonstration of healthy summer recipes. Learn some cooking tips and taste the recipes!

#### Men's Health Mondays

##### Prostate Health

**MON. June 14 (7 - 8 p.m.)**

**Princeton Fitness & Wellness Center**

What can men do to maintain prostate health and prevent prostate cancer? Join us as Sidney

Goldfarb, MD, board certified in adult and pediatric urology, describes conditions of the prostate, explains BPH and outlines medical and holistic approaches to maintaining prostate health.

#### Enhancing Sexual Performance

**MON. June 21 (7 - 8 p.m.)**

**Princeton Fitness & Wellness Center**

Sidney Goldfarb, MD, board certified in adult and pediatric urology, will present the most current information on medical and holistic approaches to maintaining sexual function as you age. Participants will learn about the causes of erectile difficulties and the newest therapies available for performance enhancement.

#### Male Health & Fertility

**MON. June 28 (7 - 8 p.m.)**

**Princeton Fitness & Wellness Center**

Alexander Vukasin, MD, board certified in urology, will discuss vasectomy and male fertility. The "no scalpel" vasectomy has emerged as a

less invasive choice for birth control with high success rates and short recovery times. Learn what you and your doctor can do to enhance your fertility and improve your chances of conception.

#### Meet the Chef

**TUES. June 22 (7 - 8:30 p.m.) • Winberie's**

**MON. July 26 (7 - 8:30 p.m.) • Main Street Café & Bar**

**Princeton Fitness & Wellness Center**

Learn some cooking tips and taste the recipes!

#### Solutions for Sleep Problems

**TUES. June 22 (6:30 - 8 p.m.)**

**University Medical Center at Princeton**

Teodoro V. Santiago, MD, leading educator, author and Director of the University Medical Center at Princeton Sleep Center, will explain the diagnosis and treatment of sleep disorders, including the procedure and outcomes of a sleep study. A tour of the Sleep Center will follow.

### CPR & FIRST AID

Call 609.497.4119 or visit [www.princetonhcs.org/calendar.html](http://www.princetonhcs.org/calendar.html) to register for CPR and first aid classes.

#### Pediatric CPR for Family & Friends

**FRI. June 11 (10 a.m. - 1 p.m.)**

**Princeton Fitness & Wellness Center**

**SAT. June 26 (9 a.m. - 12 p.m.)**

**SAT. July 31 (9 a.m. - 12 p.m.)**

**SAT. August 28 (9 a.m. - 12 p.m.)**

**University Medical Center at Princeton**

\$35 per person

This class is designed for parents, caregivers and the general public. Topics include prevention of the most common serious injuries, CPR, choking and rescue breathing for infants and children to age 8.

#### Pediatric First Aid

**SAT. July 31 (1 - 4 p.m.)**

**University Medical Center at Princeton**

\$35 per person

Learn proper treatments for bleeding, shock, burns, poisoning, bites, stings and illnesses.

#### BLS for Healthcare Providers - Full Course

**THURS. July 22 (9 a.m. - 4 p.m.)**

**TUES. August 3 & 10 (6 - 10 p.m.)**

**University Medical Center at Princeton**

\$60 per person

A comprehensive course for healthcare professionals.

#### BLS for Healthcare Providers - Recertification

**FRI. June 25 (9 a.m. - 1 p.m.)**

**TUES. July 20 (6 - 10 p.m.)**

**FRI. August 6 (9 a.m. - 1 p.m.)**

**University Medical Center at Princeton**

\$40 per person

A comprehensive course intended for healthcare professionals who practice in a medical setting and need to be recertified.

### CHILDBIRTH & FAMILY

Call 609.497.4119 or visit [www.princetonhcs.org/calendar.html](http://www.princetonhcs.org/calendar.html) to register for childbirth and family classes.

#### Safe Sitter

WED. - THURS. June 30 - July 1  
(9 a.m. - 3 p.m.)  
Princeton Fitness & Wellness Center  
\$55 per person

#### Infant Massage

THURS. June 24 - July 22  
(10:30 a.m. - 12 p.m.)  
Princeton Fitness & Wellness Center  
\$130

#### Baby Care

WED. July 7 (7 - 9 p.m.)  
TUES. July 27 (7 - 9 p.m.)  
WED. August 18 (7 - 9 p.m.)  
University Medical Center at Princeton  
\$35 per couple

#### Prenatal Breastfeeding Class

THURS. July 15 (7 - 9:30 p.m.)  
THURS. August 5 (7 - 9:30 p.m.)  
University Medical Center at Princeton  
\$35 per couple

#### Breastfeeding Support Group

THURS. June 17 (11 a.m. - 12:30 p.m.)  
THURS. July 8 (7 - 8:30 p.m.)  
FRI. July 23 (11 a.m. - 12:30 p.m.)  
FRI. August 6 (7 - 8:30 p.m.)  
THURS. August 19 (11 a.m. - 12:30 p.m.)  
University Medical Center at Princeton

#### Bright Beginnings

WED. July 7 - 28 (10:30 - 11:30 a.m.)  
WED. August 4 - 25 (10:30 - 11:30 a.m.)  
Princeton Fitness & Wellness Center  
\$5 per session, payable at door  
This four-week informative relaxed group is for parents and caregivers of infants from birth to 6 months. Infants and children under 4 years of age are welcome to attend with the parent or caregiver.

#### Childbirth Preparation

MON. June 7 - 28 (7 - 9 p.m.)  
THURS. June 17 - July 8 (7 - 9 p.m.)  
TUES. June 22 - July 13 (7 - 9 p.m.)  
MON. July 12 - August 2 (7 - 9 p.m.)  
THURS. July 29 - August 19 (7 - 9 p.m.)  
WED. August 4 - 25 (7 - 9 p.m.)  
MON. August 9 - 30 (7 - 9 p.m.)  
TUES. August 24 - September 14 (7 - 9 p.m.)  
University Medical Center at Princeton  
\$115 per couple

#### Accelerated Childbirth Preparation

SAT. June 12 (9 a.m. - 5 p.m.)  
SUN. June 27 (9 a.m. - 5 p.m.)  
SAT. July 17 (9 a.m. - 5 p.m.)  
SAT. August 14 (9 a.m. - 5 p.m.)  
University Medical Center at Princeton  
\$150 per couple

#### Childbirth Preparation Review

TUES. August 10 (6:30 - 9 p.m.)  
University Medical Center at Princeton  
\$75 per couple

#### Living With Your Infant - Part 1

WED. June 30 (7 - 9 p.m.)  
WED. July 28 (7 - 9 p.m.)  
WED. August 25 (7 - 9 p.m.)  
University Medical Center at Princeton  
\$20 per family  
Living With Your Infant - Part 1 (birth to 4 months) is an interactive class between parents and children facilitated by a pediatric nurse practitioner. This class is designed to help parents understand the psychosocial and physical development of their child.

#### Maternity Tour

SAT. June 19 (1 p.m.)  
SAT. July 24 (1 p.m.)  
SAT. July 10 (1 p.m.)  
SAT. August 7 (1 p.m.)  
SAT. August 21 (1 p.m.)  
University Medical Center at Princeton

#### Sibling Class

SAT. June 19  
SAT. July 24  
SAT. July 10  
SAT. August 7  
SAT. August 21  
University Medical Center at Princeton  
\$25 per person; \$10 for each additional sibling  
Children will design a welcome card, practice diapering and holding a doll, tour a maternity room and look into our nursery. Ages 2 and under, 9:30 - 10:15 a.m.; ages 3-4, 10:30 - 11:30 a.m.; ages 5+, 11:45 a.m. - 12:30 p.m.

### MONROE TOWNSHIP EVENTS FOR SENIORS

Princeton HealthCare System Community Education & Outreach Program is pleased to offer educational seminars and screenings to seniors residing in Monroe Township. All programs are held at the Monroe Township Office on Aging Senior Center. For more information call 732.521.6111.

#### HomeCare

##### What It's All About

MON. June 21 (2 - 3:30 p.m.)  
Monroe Township Senior Center

Whether a patient is recovering from surgery, coping with a chronic illness, or caring for a new baby, home care can help restore quality of life. Madeline Lightman, Marketing Representative for Princeton HomeCare Services, will discuss home care options.

##### Prostate Health Lunch & Learn

THURS. June 24 (11:30 a.m. - 1:30 p.m.)  
Monroe Township Senior Center

Alexander P. Vukasin, MD, board certified in urology, will discuss new medicines, surgical interventions and routine diagnostics. Men are welcome to attend with a spouse or significant other. A boxed lunch will be provided complements of Johnson & Johnson Pharmaceuticals.

#### Afternoon Tunes

WED. July 14 (1:30 - 2:30 p.m.)  
Monroe Township Senior Center

Maureen Tyler, CRTS, Merwick Rehab Hospital & Nursing Care, welcomes all to enjoy an afternoon of entertainment. Experience the joy that music and singing can provide.

#### Hypertension & Renal Disease Overview

THURS. July 29 (1 - 3:30 p.m.)  
Monroe Township Senior Center

Grace B. Bialy, MD, board certified in nephrology and internal medicine, designated specialist in clinical hypertension by the American Society of Hypertension, will discuss blood pressure classifications, the risks of hypertension, cardiovascular risks associated with high blood pressure, the benefits of lowering blood pressure, and lifestyle modifications for prevention and disease management.

# Choosing a Doctor

## What Does Board Certification Mean and Why Is It Important?

Choosing a physician is a highly personal choice. It's important to feel comfortable with your doctor, but how can you feel confident that you have selected one with the proper training, experience and skill to provide you with the clinical care you need?

Anthony J. Marino, MD, Vice President of the Medical & Dental Staff of Princeton HealthCare System, advises individuals searching for a qualified physician to give serious thought to selecting one who has achieved board certification.

In the medical profession, board certification is regarded as the hallmark of professional excellence. Dr. Marino, who is board certified in pediatrics and neonatal-perinatal medicine, serves as Chair of PHCS' Physician Credentials Committee, which reviews the credentials of all physicians who apply for privileges as members of PHCS' Medical & Dental Staff.

According to the American Board of Medical Specialties, physicians who have obtained board certification have completed rigorous specialized medical training – beyond what they learn to achieve their medical degree – following published standards set by medical specialty boards. This includes successfully completing an approved training program, maintaining a high level of performance during this training and passing a rigid evaluation designed to ensure the highest standards for providing quality patient care in the

specialty. Physicians must also complete ongoing education in their areas of specialty, and many specialties now require periodic re-certification.

### **Board Certification — A PHCS Requirement**

Because board certification is regarded as an important distinguishing factor in determining a physician's qualifications and ability, Princeton HealthCare System requires all of its physicians to either hold board certification or attain it within two years of joining the Medical & Dental

Staff. As a result, the percentage of board certified physicians at PHCS is extraordinarily high. As of March 2004, **99%** of the physicians on staff at PHCS had attained board certification. In addition, many Princeton HealthCare System physicians hold board certification in two or more areas of medicine.

As a teaching healthcare system training students, residents and fellows, Princeton HealthCare System has especially high standards for accepting and keeping a physician on staff, says Henry Davison Jr., MD, FACS, President of the Medical & Dental Staff and a board certified surgeon.

"Because of our high standards and status as a teaching institution, we have an exceptional medical staff that includes outstanding men and women who have dedicated their lives to medicine, teaching and healing," Dr. Davison says. "Our staff includes more than 800

**Princeton HealthCare System requires all of its physicians to either hold board certification or attain it within two years of joining the Medical & Dental Staff.**

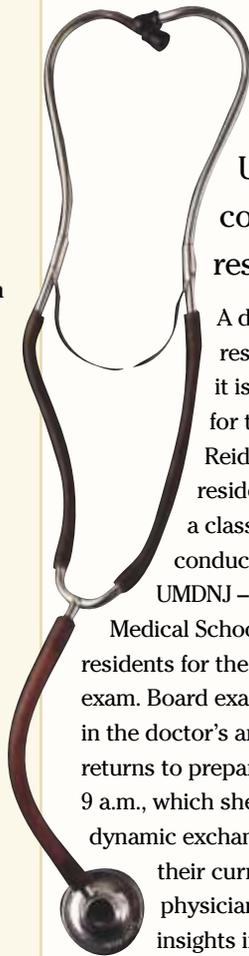

# A Day in the Life of the Chief Resident

physicians who provide primary, specialty and surgical care in a wide range of clinical areas, and nearly every doctor on our staff has achieved board certification or is eligible to receive it.”

In addition to verifying the board certification status of physicians, Princeton HealthCare System’s Physician Credentials Committee thoroughly evaluates each candidate’s undergraduate and medical education, residency/fellowship training, licensure and letters of recommendation. The committee also reviews any information about a candidate that might be present in the National Practitioner Databank, which is maintained by the federal government as a tool for protecting the public. The Credentials Committee also interviews every candidate, each of whom must pass a vote of approval by the entire medical staff as well as PHCS’ Board of Trustees.

“Princeton HealthCare System’s Physician Credentials Committee is charged with making sure that each candidate is properly vetted before the privilege of practicing medicine at our institution is granted,” Dr. Marino says. “We’re here to protect the institution, our physicians and, most importantly, our patients.”

**For help with finding a primary care physician, specialist, surgeon or dentist, visit Princeton HealthCare System’s online Physician Directory at [www.princetonhcs.org](http://www.princetonhcs.org) or call 609.497.4197.**

As Chief Resident in the Department of Medicine at University Medical Center at Princeton, Deirdre A. Reid-Fighera, MD, has one of the most diverse jobs at UMCP. She spends her day teaching, scheduling, counseling and serving as a role model for the 100 some residents in the residency program.

A day in the life of any resident is a busy one, but it is especially demanding for the Chief Resident. Dr. Reid-Fighera and the residents begin their day with a class at 6:45 a.m. The class, conducted via video from UMDNJ – Robert Wood Johnson

Medical School, helps prepare the residents for the internal medicine board exam. Board exams are given once a year in the doctor’s area of specialty. She returns to prepare for “morning report” at 9 a.m., which she moderates. During this dynamic exchange, the residents present their current cases to attending physicians gaining seasoned insights into patient care. To further enrich the discussion, Dr. Reid-Fighera often consults medical journals, textbooks and professional web sites for even more information on conditions the residents are treating.

The noon conference quickly follows – a once daily review of medical topics. Dr. Reid-Fighera may teach the conference herself or arrange for a special guest speaker. Afternoons are typically spent in meetings in her office or making personal visits with residents around the hospital to ensure all is going well with them. Each Friday, she accompanies her residents to University Medical Center’s Outpatient Clinic, where she and the other residents see patients.

Dr. Reid-Fighera also spends a good part of her time counseling residents on the personal and professional challenges of

practicing medicine by giving them feedback and helping them complete the transition from residents to practicing physicians.

A graduate of The Medical College of Pennsylvania, Hahnemann University School of Medicine in Philadelphia, Dr. Reid-Fighera plans to return there in July to begin a fellowship in rheumatology.

Dr. Reid-Fighera (far right) prepares residents for their daily schedule and responsibilities.

No matter where her career in medicine takes her, Dr. Reid-Fighera will always value the exceptional knowledge she acquired through the opportunity to work personally with the skilled and dedicated physicians at University Medical Center at Princeton, who also serve as faculty members at UMDNJ – Robert Wood Johnson Medical School.

“The physicians at the hospital who are faculty members are very involved with the residents here,” Dr. Reid-Fighera says. “They provide hands on and direct teaching. They have tremendous clinical knowledge, and they care deeply about our education.”

# PHCS Welcomes Community Input on Its Future

Mayor Phyllis Marchand of Princeton Township and Mayor Joseph O’Neill of Princeton Borough have announced that they will assist Princeton HealthCare System (PHCS) in obtaining community input on key issues as PHCS moves into the final stages of its strategic planning process.

The mayors will convene an open town meeting where Princeton HealthCare System will present its draft strategic plan and information related to the future of the hospital. The public will be invited, and there will be ample opportunity for discussion and questions at this meeting.

Mayor Marchand, Mayor O’Neill and Barry Rabner, President and CEO of Princeton HealthCare System, will also confer with a Task Force of area municipal officials on the potential impact that the hospital’s plans could have on the region.

## A Road Map for Growth

When Princeton HealthCare System (PHCS) began a comprehensive strategic planning process in the fall of 2002, the goal was to develop a plan that would serve as a road map for the next five to ten years. The highly participatory process has included Princeton HealthCare System Trustees, administrators, physicians, employees, volunteers, former patients and community members. An active Community Advisory Committee (CAC) that includes elected officials, civic leaders, and citizens has met regularly throughout the process. The strategic planning process has involved careful

consideration of clinical care, operations, facilities and financial performance. Those involved have worked to identify the future needs of PHCS, its patients, physicians, employees, and the communities it serves.

One significant issue that has been the topic of much discussion is the possible relocation of University Medical Center at Princeton. The hospital, established in 1919, is located on Witherspoon Street in downtown Princeton. Discussions throughout the strategic planning process have focused on ways that the hospital can continue to provide outstanding clinical care and convenient access to care. Participants in the process have analyzed whether this can best be done at the hospital’s current site or at a new, nearby location. At its current site, the hospital is facing challenges related to increased patient volume, heavy area traffic, limited parking space for patients, and the need to establish new programs or expand existing ones without negatively impacting the area surrounding the hospital.

## Community Involvement Vital

Mayor Marchand and Mayor O’Neill have been members of the Community

Advisory Committee since it was established in 2002.

Members of the Joint Princeton HealthCare System Task Force will include Mayor Marchand, Mayor O’Neill, the Deputy Mayor of Princeton Township, the President of Princeton Borough Council, representatives from the Princeton Regional Health Commission and the Princeton Regional Planning Board, and the chairs of the Township and Borough Zoning Boards.

“The community’s input has been very important throughout our strategic planning process, and it will continue to be vital to our decision making process,” says Barry S. Rabner, President and CEO of Princeton HealthCare System. “We would encourage every member of the community to attend the upcoming town meeting organized by Mayor Marchand and Mayor O’Neill. We appreciate their willingness to support our ongoing efforts to communicate with the community about the important issues we are considering now.”

For more information, please call Princeton HealthCare System at 609.497.4191, Princeton Township at 609.924.5176 or Princeton Borough at 609.497.7615.
